

ILORI-OJO ASIWAJU

Front-End Developer

+2349067903167 | [Email](#)

CAREER SUMMARY:

Front-End Developer a strong foundation in HTML5, CSS3, and JavaScript with React.js. Skilled in collaboration with designers to deliver high-quality performance web experience.

SKILLS:

- HTML5
- CSS3
- JavaScript
- Bootstrap
- React.Js
- Git Version Control
- Responsive Design
- Testing and Debugging

WORK EXPERIENCE:

2410 studio, United Kingdom

Intern Front-End Web Developer | November, 2023 - June, 2024

- Implemented a variety of front-end features using HTML, CSS, JavaScript to enhance user experience and interface functionality. Additionally, developed complex user interfaces with React.js, leveraging its component-based architecture to create reusable and efficient code
- Actively contributed to UI/UX design discussions, providing valuable insights to ensure a user-centric development approach. This involves collaborating with designers to align on user experience principles, conducting user research and usability testing, and implementing feedback to improve the overall functionality and accessibility of the product
- Utilized Git for version control to manage and track code changes effectively. This involved collaborating with team members through branches and pull requests, ensuring seamless integration and maintaining a clean, organized codebase.
- Collaborate with other developers to update the website and enhance the website, ensuring seamless integration of new features and improvements.

PERSONAL TRAINING

January,2023- October,2023

- Built personal projects using React.js to sharpen my front-end development skills and explore new functionalities.
- Sharpened my JavaScript skills by tackling asynchronous programming and functional techniques in online courses.
- Earned Certifications in both web development and JavaScript from Udemy to validate my skills in JavaScript and CSS.
- Deepened my CSS proficiency by enrolling in online course on advanced CSS techniques like Flexbox and grid layout to create appealing, responsive, and maintainable user interfaces.
